SIMPLEX NET

QST…QST…QST… This is (name) (call sign). The Rancho Cucamonga and Upland Auxiliary Communications Service and Community Emergency Response Team net will be starting momentarily. Before we get started, is there any emergency or priority traffic? (Pause for any response)

Hearing no (or no additional) emergency or priority traffic we will proceed with the net.

I would like to start by calling on our Chief Radio Officer for any ACS or ECS messages. (Pause)
Are there any messages from our Rancho Cucamonga Fire Department Coordinators? (Pause)
Are there any messages from our Finance and Administration Section Lead? (Pause)
Are there any messages from our Logistics Section Lead? (Pause)
Are there any messages from our Operations Section Lead? (Pause)
Are there any messages from our Planning Section Lead? (Pause)
Are there any messages from our Upland CERT Liaison? (Pause)
Are there any general messages or traffic for the net? (Pause)

Tonight is a test of our emergency communications readiness. I will not accept early or repeater check-ins. The net this evening will be conducted on 145.615 MHz simplex. Please switch frequencies and stand by. The repeater is now returned to normal operating status.

< < < ON 145.615 > > >

This is (name) (call sign). I will be the Net Control Station for the Rancho Cucamonga and Upland ACS and CERT net for this date of (date, year).

This simplex net is conducted on the last non-holiday Monday of the month at 1900 hours local time and is done in accordance with F.C.C. Rules and Regulations, Part 97, Subpart E for emergency operation.

This is a directed net and a clear frequency for the duration of the net will be appreciated. All stations with traffic must be acknowledged by net control before relaying their message. Please be prepared to relay for stations that are not able to reach their division supervisor or net control.

During roll call please acknowledge by stating your name, call sign, and if you have any traffic. Time for net will automatically be credited on check in. Stations with traffic will be acknowledged by net control to relay their message.

Visitors are welcome and encouraged to check into the net after the regular roll call.

Please stand by for roll call.

SIMPLEX NET

Rancho North Division Supervisor please call the roll for your division.
This is (name) (call sign) calling the roll for the North Rancho division.
(Call the Rancho North division stations)
This is (name) (call sign) reporting (number of contacts) stations, turning the net back to net control.

Rancho South Division Supervisor please call the roll for your division.
This is (name) (call sign) calling the roll for the South Rancho division.
(Call the Rancho South division stations)
This is (name) (call sign) reporting (number of contacts) stations, turning the net back to net control.

Upland North division supervisor please call the roll for your division.
This is (name) (call sign) calling the roll for the Upland North division.
(Call the Upland North division stations)
This is (name) (call sign) reporting (number of contacts) stations, turning the net back to net control.

Upland South division supervisor please call the roll for your division.
This is (name) (call sign) calling the roll for the Upland South division.
(Call the Upland South division stations)
This is (name) (call sign) reporting (number of contacts) stations, turning the net back to net control.

That is the regular roll call. Are there any ACS or CERT member stations who were late or missed? Please check in now with the last letters of your call sign and your division assignment. (Pause)

Are there any visitors to the net this evening? Please check in with the phonetic spelling of the last letters of your call sign and I will come back to you in turn. When acknowledged, please state your full call sign, name and location. Visitors may check in now.

Is there any further business or traffic for the net this evening? (Pause)
Hearing no further business or traffic for the net, this concludes this week's net operation. All stations are urged to check in each week for an update of ECS, ACS and CERT activities.

If the repeater is down during an emergency, this simplex frequency will be used to provide information regarding the activation of ACS or CERT and active net frequencies.

This is (name) (call sign) now closing the net at (time) hours local time. Good evening and thank you for your participation.

The frequency is now clear.
